LHC Report - 6/3/22

Overview

- Thesis is at a good point.
 - Edits still going to happen, but it looks like it is close.
- Generated new data with each header seeker variant. See following slides.
- Made defense slide deck and did a practice presentation earlier today. Lots of great feedback!
- Looking to wrap up the design after commenting and conversion:
 - What deliverables are we looking for?
 - All design variants?
 - Which if any sims?

Variant Misalignment Recovery Performance

Variant Resource Utilization
